Social Skills Program

Our Mission

1-2-3 "Let's Play" is dedicated to providing social skills programs and training of the highest quality. Our goal is to enable children with the necessary skills to reach their maximum potential. We believe that social skills are a critical part of all children's education. Children who develop high quality social skills are better prepared for school as well as life's many challenges.

***Servicing children ages 3-18**

Small Group Sports Program

- Rules and instruction
- Baseball, T-ball and Soccer
- Team work
- Following group directions

Social Skills

Peer relationships and the ability to relate to others are critical for the emotional development of children. Acquiring these skills is often a difficult task for many children including the gifted and talented, children diagnosed with Autism Spectrum Disorders (ASD), Attention Deficit Disorder (ADD) and different learning disabilities. Our goal is to teach social interaction skills in a fun and engaging way while decreasing inappropriate behaviors.

Targeted Skills

- Appropriate play skills
- Using appropriate body language
- Initiating interactions such as play, conversation, etc.
- Responding to interactions from others
- Engaging in activities with others
- Taking turns
- Understanding other people's body language such as facial expressions
- Eye contact/Attending
- Giving compliments
- Exchanging greetings

Social Activities

- Independent toy play (legos, blocks, trains set, dolls, figurines, games, etc.)
- Pretend play
- Peer play (social games, music and song games, turn-taking games, board games, mock parties)
- Snack and chat
- Friday night teen night!!
- Learning through art
